

Weekly Sustainability Spotlight

Mahmood Group

ENVIRONMENT

- Installed large-scale renewable energy capacity including 7.0 MW and 39.0 MW solar PV systems.
- Achieved LEED Gold Certification for spinning units and LEED Platinum Certification (87 points) for sustainable facilities.
- Implemented an Environmental Management System (EMS) in collaboration with WWF Pakistan.
- Enforces a Green Purchase Policy prioritizing environmentally friendly materials and products.
- Installed Waste Heat Recovery Boiler to improve energy efficiency and reduce emissions.
- Established a 12,000-gallon rainwater harvesting system, reducing reliance on groundwater.
- Operates an Effluent Treatment Plant (ETP) ensuring treatment and recycling of wastewater with zero untreated discharge.

SOCIAL

- In partnership with Care Foundation, operates four schools (Kabirwala & Muzaffargarh).
- Installed 27 water filtration plants, serving over 400,000 people daily and reducing waterborne diseases.
- Collaborates with TEVTA for female skill development, providing employment opportunities on-site.
- Supports NOP Scholars at LUMS.
- Provided flood relief in South Punjab in collaboration with VC Nishtar Medical University, distributing medicines, ration, and meals.
- Operates 8+ free medical dispensaries, serving 800+ patients daily and providing hospital meal programs.
- Runs two subsidized schools, supports infrastructure for a government school (5,000+ students), and offers unlimited scholarships for deserving children.
- Promotes education for special and differently-abled children.
- Empowers marginalized women at SOS Village Multan through uniform production initiatives.
- Women empowerment programs including Nisaab (literacy) and Beena (skill development).
- Promotes industry-academia linkage across South Punjab.
- Provides subsidized meals and commute facilities for staff.
- Sponsors regular medical camps in underprivileged areas.

GOVERNANCE

- Adheres to International Financial Reporting Standards (IFRS) and the Companies Act, 2017.
- Enforces a comprehensive Code of Conduct and corporate policies, effectively communicated organization-wide.
- Statutory auditors maintain satisfactory ratings under the Quality Control Review program and are registered with Pakistan's Audit Oversight Board.

Mahmood Group

Mahmood Group of Industries: Powering Growth Through Sustainability & Community Impact

This week, Pakistan Textile Council highlights Mahmood Group, a leading example of how sustainability, social investment, and governance excellence can operate hand-in-hand.

1. Environmental

- a. 46+ MW Solar PV Installed (7 MW + 39 MW)
- b. LEED Gold & LEED Platinum (87 Points) Certified Facilities
- c. Waste Heat Recovery Boiler for enhanced energy efficiency
- d. 12,000-gallon rainwater harvesting system reducing groundwater reliance
- e. Effluent Treatment Plant ensuring wastewater treatment & zero untreated discharge
- f. Environmental Management System (EMS) in collaboration with WWF Pakistan
- g. Green Purchase Policy promoting environmentally responsible sourcing

Mahmood Group continues to integrate renewable energy and sustainable resource management into core operations

2. Social

- a. Partnership with Care Foundation operating four schools
- b. 27 water filtration plants serving 400,000+ people daily
- c. 8+ free medical dispensaries serving 800+ patients daily
- d. Unlimited scholarships & NOP Scholar support at LUMS
- e. Female skill development programs with TEVTA
- f. Flood relief efforts across South Punjab
- g. Empowerment initiatives including Nisaab (literacy) & Beena (skill training)
- h. Subsidized meals, commute facilities & community medical camps

Mahmood Group's community investments extend well beyond factory gates

3. Governance

- a. Compliance with IFRS & Companies Act 2017
- b. Organization-wide Code of Conduct & governance policies
- c. Auditors registered with Pakistan's Audit Oversight Board

Strong governance frameworks reinforce long-term sustainability and transparency.

Mahmood Group demonstrates how Pakistan's textile sector is evolving into a responsible, renewable-powered and community-focused industry leader.
